

Listing of the Claims:

The following is a complete listing of all the claims in the application, with an indication of the status of each:

1. (Previously presented) An orthopedic aid, comprising:
 - two parts of an orthopedic joint which are movable relative to one another;
 - a locking device for locking the two parts in a predetermined relative position and for unlocking the two parts in order to permit movement of the two parts with respect to one another;
 - a control module for electromechanically actuating said locking device;
 - and
 - an actuating unit integrated into a walking aid which is separate from said orthopedic joint for sending an actuating signal by wireless transmission to the control module.
2. Canceled
3. (Previously presented) The orthopedic aid as claimed in claim 1, wherein the actuating unit is accommodated in a handgrip of the walking aid.
4. (Previously presented) The orthopedic aid as claimed in claim 3, further comprising an actuating button arranged on a free end face of the handgrip.
5. (Previously presented) The orthopedic aid as claimed in claim 1, wherein the actuating unit includes a manual transmitter.
6. (Previously presented) The orthopedic aid as claimed in claim 1, wherein the control module is capable of transmitting one or more of an acknowledgment signal or a warning signal to the actuating unit.
7. (Previously presented) The orthopedic aid as claimed in claim 6, wherein the actuating unit includes one or more of

a visual display,
an acoustic signal arrangement, and
a vibrator,

wherein one or more of said visual display, acoustic signal arrangement, or said vibrator that is controlled by an acknowledgment signal or warning signal transmitted by said control module.

8. (Previously presented) The orthopedic aid as claimed in claim 7, wherein the vibrator is arranged in a handgrip of the walking aid.
